

# Gas Pump Project

## Execution Steps

### Method 1

- Locate the GasPump.jar in the uploaded folder
- Open cmd in the same folder in which GasPump.jar exists
- Type the command `java -jar GasPump.jar`

### Method 2

- Locate the GasPump.bat in the uploaded folder
- Double click on it to run the program

### Method 3

- Import the project to Eclipse for Java
- Right Click on the project folder
- Hover on "Run As" option and select "Java Application"

## System Requirements

- Java 8
- Java path must be set in the environment variables
